About Guru Jambheshwar Ji Maharaj

Guru Jambheshwar Ji Maharaj was a saint and great environmentalist of the 15th century. Amongst all the saints of the 15th century, Guru Jambheshwar Ji was unique in preaching about the conservation of biodiversity to his followers. He also included the same in his 29 commandments. Thus, Guru Jambheshwar Ji was not only a religious 'GURU' but a great ecologist and environmentalist, many centuries ahead of the scientists.

He was born in 1451 A.D. (Samvat 1508) on the 8th day of dark half of the Lunar month Bhadrapad on Janamashtami, in a village Pipasar situated in the revenue jurisdiction of Nagaur district of Rajasthan, India. He adopted the life of an ascetic teacher in 1484 AD and started living on the Samrathal, sand 999Dhora hill of Mukam village situated in Nokha tehsil of Bikaner district of Rajasthan. He enshrined in his followers' compassion towards nature and protection of life as the supreme religious goal.

He founded the Bishnoi sect in 1485 AD on eighth day of the black fortnight of the month of Kartika of the year 1542 of the Vikrami Era at Samrathal Dhora and prescribed 29 commandments dealing with various aspects of life. He spent the remaining 51 years of his life in spreading his great vision. He expounded his religious philosophy and the essence of these principles in the form of verses. These spiritual verses have a vigour of their own, vibrant, passionate and sincere. These are distinguished by their vivid and conversational style and moral exhortation. Guru Ji achieved 'Nirvana' in 1536 in village Lalasar District Bikaner, Rajasthan.

Among the 29 commandments laid down by Guru Jambheshwar Ji, eight commandments have been prescribed to preserve biodiversity and encourage good animal husbandry. Seven commandments provide directions for healthy social behavior. Ten Commandments are directed towards personal hygiene and maintaining good basic health. Four commandments provide guidelines for worshipping God daily and always remember that God is omnipresent. Guru Jambheshwar Ji had occupied a unique place in the Bhakti movement. Though his area of activity had been mainly the desert land of Thar, yet he had been touring other places too. During these extensive tours he has been spreading the message;

“Jeeya Nai Jugati or Mhan (Moova) Nai Mugati”.
(To live is a device and to die is salvation) within and outside the country

The National Education Policy 2020 (NEP 2020) is a comprehensive and ambitious policy that aims to transform the Indian education system and makes it more student-centric, holistic and to align with the needs of the 21st century. It outlines the goals, objectives, and policies for the development and improvement of education across all levels. Some of the key features of the NEP 2020 include:

- Multidisciplinary, flexible and equitable education framework for the holistic development of learners
- Emphasis on skill-based education, vocational education and apprenticeship/internship
- Encourage critical thinking, creativity and problem-solving skills
- Increase the Gross Enrollment Ratio (GER) in higher education to 50% by 2035
- Promotion of Indian languages, art, culture and heritage
- Emphasis on Multidisciplinary, Interdisciplinary, and Transdisciplinary research to develop innovative solutions to overcome societal issues

NEP 2020 advocates that a holistic and multidisciplinary education would aim to develop all capacities of human beings -intellectual, aesthetic, social, physical, emotional, and moral in an integrated manner. Such a holistic education approach is necessarily required at under graduate level. The 4-year multidisciplinary Bachelor's programme, however, shall be the preferred option since it allows the opportunity to experience the full range of holistic and multidisciplinary education in addition to a focus on the chosen major and minors as per the choices of the student. The holistic four year under graduate education with multiple entry and exit provisions will help in matching of the undergraduate education to international standards and will facilitate the student mobility for higher studies, research, and employability across the globe. The NEP 2020 envisages flexibility in the design and duration of Master's degree programmes. The structure and duration of Master's programmes of study proposed by NEP 2020 include:

- (a) a 2 years Master's programme for those who have completed a 3 years Bachelor's programme
- (b) a 1 year Master's programme for students who have completed a 4 years Bachelor's programme
- (c) an integrated 5 years Bachelor's-Master's programme
- (d) a Ph.D. programme shall require a Master's degree or a 4 years Bachelor's (Honours with research) programme

Bachelor's degree (Honours/Honours with Research) (4 years), Integrated Bachelor's degree (Honours/Honours with Research)-Master's programme (4+1=5 years) and Integrated Bachelor's degree (Field of study/discipline)-Master's programme (3+2=5 years)

Year	Type of Certificate/Diploma/Degree	Qualification title/nomenclature and programme duration
1 st year	Undergraduate Certificate	Undergraduate Certificate (Field of study/discipline) of the undergraduate programme after summer internship of four credits.
2 nd year	Undergraduate Diploma	Undergraduate Diploma (Field of study/discipline). (Programme duration: First two years (first four semesters) of the undergraduate programme, after summer internship of four credits.
3 rd year	Bachelor's degree	Bachelor of (Field of study/discipline) the undergraduate programme Examples: Bachelor of Arts (B.A.), Bachelor of Science (B.Sc.).

- ii. Provision of multiple entry and exit options with a UG Certificate or UG Diploma or UG Degree depending on the number of credits earned
- iii. Flexibility for students to move among the institutions through the implementation of Academic Bank of Credits (ABC)

The objectives of HRDC are to enhance the participants' motivation, skills and knowledge through systematic orientation in specific subjects, techniques and methodologies, and thereby inculcate the right kind of values that would in turn encourage them to take initiatives for innovative and creative work. The functions of HRDC in the university are to plan, organize, implement, monitor and evaluate a variety of programmes for diverse stakeholders. Faculty Induction Programmes are organized for newly appointed Universities and Colleges teachers to acquire and improve art of teaching, to understand the linkages between education and economic, socio-economic and cultural development, to utilize opportunities for development of personality, initiative and creativity, and to promote computer literacy as well use of ICT in teaching and learning process. Refresher courses are organized for corporately senior Universities and Colleges teachers to keep abreast of the latest developments in their specific subjects, and also to understand the organization and management of a college/ university and to perceive the role of teachers in the total system.

Interaction programme-cum-workshop for the Ph.D. Scholars is also organized on the theme of 'Research Methodology' to sharpen their research skills and facilitate their research work. Short-term courses ranging from 2-3 days to one week are also organized for academic staff, non-academic staff, and Ph.D. scholars on need based themes. Programmes for Heads of departments, Principals, Deans, Officers, etc. are organized with a view to acquaint and sharpen the top-level administration skills which is helpful for effective decision making and its

implementation to achieve the excellence in the connected fields. While following the UGC instructions, the HRDC also organizes Summer/Winter School for universities and colleges teachers to sensitize them in key areas like 'Disaster Management', 29 Values and Spiritualism etc. In addition to UGC sponsored programmes the HRDC also organized the need based programmes on Faculty Development, Staff Development, Capacity Building, and Research Methodology for Ph.D. scholars funded by other national and international agencies like World Bank and Indian Council for Social Science Research (ICSSR), MHRD etc.

In the present scenario when the students are gyrating towards professional job-oriented courses, the Department of Physics is working actively to attract young minds towards Physics that is research and career oriented. The department offers a dynamic mixture of pure and applied Physics with research orientation at UG and PG level. Established in 1996, with the aim to cater laser and optics industry; Master's program in Physics was started with thrust areas in Laser Technology, Fiber Optics & Optical Communications and Materials Science. At present the department is offering Integrated B.Sc. (Hons./Hons. with Research) - M.Sc. Physics (5 Years) as well as postgraduate M.Sc. (Physics) (2 Years) courses with specializations in Condensed Matter Physics, Photonics, Materials Science and Nuclear Physics. The syllabi are innovatively designed and structured in a manner to provide basic knowledge in Physics and offer options of specialization. The group discussion, seminars and minor /major research projects are integral components of these courses to enhance depth knowledge of the subject. Most of the current fields are covered by dedicated and dynamic faculty, viz. Photonics, Optical communication, Laser physics, Non-linear optics, Physics of nano-materials, thin films, Glass and ceramics, Solar cell and renewable energy, Radiation physics, nuclear physics and Theoretical physics etc. Apart from course curriculum, the extension/special lectures, workshops, interaction with industry persons and academic visits of the students are other important activities of the department to strengthen students' knowledge. The dynamic and vibrant ambiance of the department is further enriched by round the year activities of Physics Association of the department. Presently housed in a new four storey building, the department has good infrastructure with well-furnished laboratories for under-graduate, post-graduate and Ph.D. students.
